Holtzman to Greer to Crohn

Gentlemen:

FTC CO Testing
Letter to Commission

I am pleased to report that with a few additional language revisions made in response to Mr. Crohn's suggestions of February 11th, and one further addition from Mr. Pepples, we have complete unanimity of agreement on a letter to the FTC seeking a response to our earlier comments on carbon monoxide testing.

The execution copy of the letter (an extra copy of which is attached for your information) is now circulating to you, for signature, in the order in which your names appear above. Mr. Crohn will receive the letter last from Mr. Greer, and in turn forward it to the Commission.

Your patience and cooperation in achieving this result is appreciated.

Max: Please let me know when the letter has reached you and gone to the Commission.

Regards and Best Wishes,

Arthur J. Stevens
